JenTech Cables and Accessories

JenTech HIGH SPEED 3D HDMI+Ethernet cable (3D ready, HD4K, 10-48bit color, 10.2Gbps)

The "Economy" Line of High Speed 3D HDMI+Ethernet cables from Jenving Technology - the manufacturers of Supra Cables. JenTech HDMI is a white, thin and highly flexible cable, ideal for wall mounting. The cable is designed for the latest HDMI standard, HDMI High Speed with Ethernet (v1.4). HDMI Ethernet Channel enables a fast and bidirectional communication, up to 100Mb/sec. Perfect for all IP-based applications. The Audio Return Channel also permits audio to be returned from the TV's built-in digital tuner - the tuner can send the digital audio to your surround sound system, eliminating the need for a separate audio cable.

Supplied as HDMI <-> HDMI connector

Length	1m	1.5m	2m	3m	4m	5m		Only these lengths are available.
SRP	29.00	31.50	34.00	39.00	44.00	49.00	each	

Supplied as HDMI <-> mini C HDMI connector

Length	1m		2m	3m				Only these lengths are available at present.
SRP	29.00		34.00	39.00			each	

JenTech DB06/EU 6 way mains block – FOR EUROPE ONLY, not suitable for UK

A simple 6 way Schuko mains block, with factory fitted with a CAPTIVE LoRad 1.5 shielded mains cable, of 1.5m length, terminated with a moulded on right angle Schuko connector.

Cable Length	1.5m	
SRP	80.00	

JenTech Sky 11 Economy Speaker cables

Multi-stranded copper OFC. Highly suitable for use as a "freebie" cable or for supplying with budget systems. We provide guide retail prices, as most retailers will usually use these as high quality "get you going" cables for inclusion in complete system packages.

Product	Sky 11 0.75mm White only	Sky 11 1.6mm White or Transparent	Sky 11 2.5mm White or Transparent	Sky 11 4.0mm White or Transparent

Supra Cables and Connectors

Digital Video cables – HDMI and DVI

HD5 is Supra's NEW "next generation" design of Digital Video cable.

HD5 is available with HDMI connectors and capable of carrying digital video signals AND network connectivity. Adds a data channel to the HDMI cable will enable high-speed bi-directional communication. Send and receive data via 100 Mb/sec Ethernet, making them instantly ready for any IP-based application. **Features:** v1.4 certified, **v2.0 approved** (see below) Signal Bandwidth: 340 MHz. TMDS Bandwidth: 10.2 Gbit/s. Color Depth: 48 bit/px. **4K x 2K Resolution support: Enables video resolutions far beyond 1080p.** Deep Color, x.v.Color. Auto Lip Sync. Dolby TrueHD, DT-HD Master Audio. 3D over HDMI. Audio Return Channel. Ethernet Channel.

Note: HD5 cables support 4K resolution as follows: Lengths: 0.5m-10m up to 4096 x 2160 @ 60Hz , Lengths from 12m to 20m 4096 x 2160 @ 24/30Hz

**** We can supply HDMI<->HDMI cables up to 30 metres in length. ****

Supra HD5 STANDARD HIGH SPEED 3D HDMI+Ethernet cable

The HD5 cable is available using standard non-detachable HDMI connectors, whilst still complying with the High Speed spec.

Length	0.5m	1m	1.5m	2m	3m	4m	5m	6m	8m	10m	12m	15m
SRP	45.00	x	x	60.00	70.00	80.00	90.00	100.00	120.00	140.00	160.00	x

The above items are available "whilst stocks last" as they will be phased out, and replaced with the Met-S versions

Supra HD5 Met S HIGH SPEED HDMI+Ethernet cable

The Met-S is factory-fitted with 2x straight "removable" housings, making it suitable for installation where the cable needs to be fed through a conduit, as the outer shell can be unscrewed. The previously supplied "angled" housing plus draw-through braid are now optional extras. **Please note: HD5 Met-S cables up to 5m length use the HD5/S "slim" cable (o/d is only 7mm). HD5 cables over 5m in length use the standard HD5 cable (9.5mm outside diameter)**

Supra HD5/S Met-S cables

Length	0.5m	1m	1.5m	2m	3m	4m	5m		
SRP	49.00	54.00	59.00	64.00	74.00	84.00	94.00

Supra HD5 Met S/B HIGH SPEED HDMI+Ethernet cable

The Met-S/B is factory-fitted with 2x straight removable housings and supplied with extra 1x "bent" housing plus draw-through braid.

Length	1m	2m	3m	4m	5m	6m	8m	
SRP	70.00	80.00	90.00	100.00	110.00	120.00	140.00	
Length	10m	12m	15m	20m	25m	30m		
SRP	x	180.00	210.00	260.00	310.00	360.00		

The above items are available "whilst stocks last" as they will be phased out, and replaced with the Met-S versions.

We can also supply:

HDMI<->DVI-D terminated cables using HD5/S (up to 5 metres) or HD5 (over 5 metres).

DVI-D <-> DVI-D (single link) terminated cables using HF100, HD5/S, HD5 or HF5/H Halogen Free.

DVI-D<-> DVI-D (dual link) terminated cable using HD7 cable.

Supra HDMI XT80 High Speed HDMI 3D Extender (requires 2 Ethernet Cables)

Ideal for HDMI installation with long distances between the HDMI devices. Specification: Full-HD resolution up to 80 metres. Two ethernet cables (Cat5e minimum, Cat7+ recommended) are required between the transmitter and receiver. Features: Supports HDCP 1.2, CEC and HDMI High Speed (v1.4). Audio Formats: DTS-HD/Dolby-true HD / LPCM 7.1/DTS/Dolby-AC3/DSD. 3D support. Resolution: 24/50/60fs/1080p/1080i/720p/576p/576i/480p/480i. Up to 80 metres with dual Cat7 network cables. HDMI extender transmitter, receiver and AC adapter included (220-240V, 50-60Hz). Network cables not included.

UK Suggested Retail Price List – October 2016

Supra Cables and Connectors

Digital Audio cables

USB Cables – What HiFi “USB Cable Of The Year” (2012) and What Hi-Fi “5*” Winner (Nov 2012)

Featuring: Flexible cable with dual screens for best RF pick-up protection. One twisted pair for data and another twisted pair for power with individual screens for minimal interference. Low capacitance and efficient noise rejection maintain signal integrity especially over long runs PE-insulated wires with 90 ohm impedance design, 24K gold plated and shielded connectors. High speed USB v2.0 certified. The bandwidth of 480 Mbits/s (60 MB/s) allows USB 2.0 devices to have smaller buffers even at high data rates. (Currently USB 3.0 is not used for USB Audio and hence this cable is more than sufficient for current needs).

Fitted with standard A to B connectors

Fitted with standard A to **mini**-USB B connectors in 1m, 2m and 3m lengths ONLY – for use with some DAC's/portable products

Fitted with standard A to **micro**-USB B connectors in 1m, 2m and 3m lengths ONLY

Fitted with standard MALE A to standard FEMALE A connectors in 1m and 2m lengths ONLY – these can be best thought of as “extenders”, which can increase a previously purchased cable by a desired length

Length	0.7m	1m	2m	3m	4m	5m	8m	10m	12m	15m
SRP	27.00	29.00	36.00	43.00	50.00	57.00	78.00	92.00	106.00	127.00

ZAC Fibre Optic cables

Zero Attenuation Concept fibre optic cables are available in a number of lengths, perfect for CD, DVD and LaserDisc players. **ZAC** are fitted with high quality metal body TosLink connectors. Hi-Fi Choice Bronze award winner.

ZAC prices for: toslink to toslink, mini-toslink to toslink, mini-toslink to mini-toslink

Length	15cm	30cm	1m	2m	4m	6m	8m	10m	15m	20m

Please note: Mini-tos to toslink only available in lengths up to 4m, mini-tos to mini-tos in lengths up to 1m.

DAC-XLR

For use as a balanced digital interconnect terminated from XLR to XLR AES/EBU - for digital audio use, 110 ohm

DAC-XLR prices for single male XLR to single female XLR

Length	1m	2m		per extra metre
SRP	48.00	55.00		7.00

CAT7+ Network cables

This is a very wide bandwidth Halogen Free (“Low Smoke”) Ethernet cable, fitted with high grade GG45 type connectors, which are plug compatible with existing RJ45 connectors. Connection is an 8P8C type – meaning that all 4 twisted pairs are utilised to ensure maximum bandwidth (when connected to supported hardware). Cat7+ cables, longer than 20m are available – please enquire.

Length	0.5m	1m	2m	3m	4m	5m	6m	8m	10m	12m	15m	20m
SRP	27.00	N/A	36.00	42.00	48.00	54.00	60.00	N/A	84.00	96.00	114.00	144.00

CAT8 Network cables

This is an improved version of Cat7+ Ethernet cable, fitted with high grade GG45 type connectors, which are plug compatible with existing RJ45 connectors and is highly suitable for wired home media systems, where high quality video streamed from local storage is required. Cat8 cables, longer than 20m are available – please enquire.

Supra Cables and Connectors

LORAD MK 11 MAINS CABLES

LoRad is a worldwide patented, CE-approved audio grade shielded mains cable, available “off the reel”, using multi-stranded tin-plated OFC conductors. The cable is shielded via a carbon/mylar screen, which is in “touching” contact with the drain wire. As such, the drain wire **MUST** be connected to the EARTH terminal at EACH END of the cable. Standard insulation colours are used: Brown (L), Blue (N) and Green/Yellow (E).

LoRad 1.5 is rated at up to 10 Amps, making it suitable for virtually all Home Consumer kit, excepting high output power amps or AV receivers. LoRad 2.5 is rated at up to 16 Amps and hence can be used both for big “monster” amplifiers, as well as for use with distribution blocks or as a dedicated spur from fuse box/distribution board to wall socket(s).

Please note: We **DO NOT RECOMMEND** that LoRad cable is laid inside walls or under floorboards, where it’s presence **CANNOT** easily be detected by conventional mains cable “finders” (unless perhaps photo evidence is provided to ensure that owners **KNOW** where the cable has been installed).

Supra Cables and Connectors

Supra LoRad multi-way Mains Distribution Blocks feature an all-aluminium shielded chassis, upon the top of which are inset numerous mains sockets. The Standard versions include Non-Intrusive Filtering, which works in PARALLEL to the incoming mains supply and hence should have little if any effect on the sound quality. The /SP versions of the block features the Tommy Jenving designed 3-way Surge Protection System as well as Non-Intrusive Filtering, ensuring maximum reduction in spurious mains interference. Mains input is by way of a 3 pin IEC chassis mount connector. Please note. NO input cable is supplied with these items, leaving customers with a free choice as to the length of cable required to run from the wall socket to the mains block.

Please note: These blocks are now manufactured "in house" in the Supra factory in Sweden. We can therefore entertain special orders, such as alternative outlets (such as Belgian, Australian, US) etc as well as specific internal wiring arrangements. Please contact us for details.

Supra Cables and Connectors

Flat 1.6 Speaker cables

A super flat speaker cable, only 1.95mm thick. Ideal for unobtrusive wiring on wall or under carpet. Can be taped to the wall with Supra's double-sided tape. The conductors consists of compressed tin plated OFC braid. The special production process makes the cable both super flat and highly flexible. The tin also contributes to a better sound quality by minimising the skin-effect and making less current jumps between the wire surfaces. One set of 10m Supra Cable Mounting Tape MT9 is included in cable carton.

Product	Flat 1.6mm	MT6 mounting tape	MT9 mounting tape	
Length on reel	200m	10m	10m	
SRP (per m)	3.33	5.00	6.00	
Notes	White			

Classic Series Loudspeaker cables

Classic cables are made from multi-stranded >5N purity Tin-plated Oxygen Free Copper. An ion-stable PVC outer jacket minimises corrosion whilst remaining extremely flexible. Ideal for longer runs as cable resistance is amongst the lowest in it's class. The Classic 1.6HT, 2.5HT and 4.0HT versions use *Halogen Free insulation*, making it flame-proof and highly suitable for multi-room installation. **Please specify which COLOUR cables you require -either Ice Blue or White sheathing is now available.**

Product	1.6HT	2.5T	2.5HT	4.0T	4.0HT	6.0T
Length on reel	300m	200m	200m	100m	100m	100m
SRP (per m)	2.50	3.50	4.00	6.00	8.00	
Notes	Ice Blue Halogen Free	Ice Blue or White	Ice Blue Halogen Free	Ice Blue or White	Ice Blue Halogen Free	Ice Blue

Rondo Series Loudspeaker cables

Rondo 2x2.5T is the single wired version of the popular Rondo 4x2.5, and is suitable for wiring budget or mid-range hi-fi and AV systems using high quality Tin-plated OFC conductors, in a single robust outer jacket.

Product	Rondo 2x2.5T	
Length on reel	100m	
SRP (per m)	6.50	
Notes	Ice Blue or Anthracite	

Rondo 4x1.6/HT, 4x2.5T and Rondo 4x4T are for bi-wiring a wide range of low, medium or high power systems (based on cable thickness), and combine the strengths of Supra's Tin-plated OFC cables, in a single robust outer jacket.

Product	Rondo 4x1.6/HT	Rondo 4x2.5T	Rondo 4x4T
Length on reel	100m	75m	50m
SRP (per m)	6.50	9.00	13.00
Notes	Ice Blue or Anthracite Halogen Free	Ice Blue or Anthracite What Hi-Fi "Best Buy" What Hi-Fi 5* winner.	Ice Blue or Anthracite

Linc Series Loudspeaker cables

Linc Series is a shielded speaker cable, designed to minimise the effects of external interference on the sound quality, as well as preventing electro-magnetic radiation from the speaker cable affecting low level cables, close to the amplifier.

Product	Linc 2x2.5	Linc 2x4.0	
Length on reel	100m	100m	
SRP (per m)	6.50	8.50	
Notes	Ice Blue	Ice Blue

Supra Cables and Connectors

Ply Series Loudspeaker cables

Ply Series is a low resistance, multi-stranded cable using a proprietary Tin Plated Oxygen Free Copper mixture, of square section and low inductance. A shielded version of Ply 3.4 is now available, called the Ply 3.4/S. The new version uses three distinct Supra technologies tin-plating, RF shielding and low inductance. **Please specify which COLOUR cables you require -either Ice Blue or White sheathing is now available.**

Product	Ply 2.0	Ply 3.4	Ply 3.4/W	Ply 3.4/S
Length on reel	100m	100m	100m	100m
SRP (per m)	7.00	9.00	10.00	11.00

Type	2x 2m	2x 3m	2x 4m	
SRP	290.00	330.00	370.00	40.00

XL Annum loudspeaker cable has been conceived in association with the designer of the QLN speakers and is in celebration of Supras 40th Anniversary. The design is a 4 x 1.6 mm² square shaped lead configuration, where each lead comprises a plastic core around which 12 strands 5N oxygen-free copper are spun in a tight pitch. This minimizes skin-effect and inductance efficiently and by choosing the sonically benign PP as dielectric (insulation) the sonic stability by preventing corrosion and material fatigue, will remain at highest possible level year after year. Available “off the reel” or in factory terminated pairs, and supplied with CombiCon Crimp Banana/BFA and spade connectors, this new cable is available in “shotgun”, bi-wire or bi-amp.

Product	XL Annum “shotgun” (2-2)	XL Annum “shotgun” (2-2)	XL Annum “shotgun” (2-2)	per extra stereo metre
